

Sharif Sharif

Computer Science Student | Blockchain & Software Developer

Motivated Computer Science undergraduate with hands-on experience in **software development, blockchain systems, and cybersecurity fundamentals**. Graduate of the **Sui Blockchain Bootcamp** with verifiable on-chain certifications, experienced in designing and implementing smart contract logic using **Move**, building full-stack applications, and collaborating in structured development environments. Passionate about building **secure, scalable, and impactful systems**, with strong interest in Web3 infrastructure, public safety technology, and open-source development. Seeking **internship or junior software/blockchain developer roles** to contribute meaningfully while continuing to grow technical depth.
